

GENERAL TERMS AND CONDITIONS OF SMT - "GTC"

Preamble: SMT introduces the GTC i.e., General Terms and Conditions to any of its Customers. The third-party software suppliers apply their own terms and conditions which are separated from this GTC and is between Customer and Supplier.

Definitions:

PARTIES/ENTITIES:

"Customer": the party to which SMT delivers the agreed upon Products and/or Services.

"SMT": the party that, depending on the Proposal, is a value-added reseller of third-party Software, licensor of its own SMT Apps as well as a party rendering the agreed upon Services.

"Manufacturer": SMT's supplier of proprietary Software.

"Company and organization": the corporate group of the Customer made up of the Customer and all its affiliates being those entities in which Customer has a decisive vote e.g., by owning more than 50% of the votes or by contractual means.

"Third Party": a person or company or other legal entity not being SMT, nor Customer nor the Company and organization.

"DOCUMENTS"

"Agreement": the GTC and one or more individual contracts mentioned in the GTC-paragraphs including, without limitation, the LIMA(s), any Proposal, SMT Maintenance Service Level Agreement(s), Statement(s) of Work and/or SLA, Escrow(s), Seconded Employee, inclusive of their individual extension, restriction, prolongation, or termination. Termination of one or more of the above-mentioned individual contracts will not affect the validity of the other contracts that are in place.

"Proposal": is part of the Agreement. Each Proposal describes to what extent it applies for: Software licenses, Software maintenance, SMT Apps, Services, and Training.

"GTC": the general terms and conditions hereof.

"LIMA": license and/or maintenance/support agreement ("LIMA") of the Manufacturer Software Supplier.

"SMT Maintenance Service Level Agreement"

(also: "SMT Maintenance SLA"): represents the operational maintenance and support policies for the Software and the SMT Apps, as may be changed from time to time with prior written notice to the Customer.

"Documentation": the operator's manual for the Software and SMT Apps, which Customer herewith states to have received.

"Statement of Work (SOW) and/or SLA (Service Level Agreement)": describes the agreed upon Services.

"PRODUCTS AND SERVICES"

"Services": SMT renders services for assessment, design, implementation or on-site-maintenance of the Software and/or SMT Apps or other defined services all described in a "Statement of Work and/or SLA".

"Training": is SMT training rendered to Customer's personnel to use and maintain the Software.

"SMT Apps": i.e., SMT's creation of an app or Software scripts and modules wholly maintained by SMT.

"Software": is third party software from one or more Manufacturers as provided by SMT to the Customer.

"Maintenance": is SMT's maintenance and support of the Software as reflected in a corresponding license and/or maintenance/support agreement ("LIMA") of the Manufacturer, or as reflected in the GTC e.g., for the SMT Apps. The 1st line support and maintenance (i.e., telephone support, software updates) is executed by SMT as reflected in the GTC, while the 2nd line of support and maintenance of the Software is executed by the Manufacturer as reflected in the LIMA.

"Error": a documented defect in the Software and/or SMT Apps that causes (i) the Software and/or SMT Apps not to operate in accordance with the description of the Software's function and/or (ii) SMT Apps not to function in accordance with the Documentation and /or the LIMA.

"Update": a modification to the Software and/or SMT Apps that is generally offered by the Manufacturer and/or SMT resp. in its sole discretion as an "Update" comprising a maintenance version release to a specified Version or SMT Apps. All Updates shall be deemed licensed to Customer pursuant to the applicable LIMA. SMT will deliver all Updates, releases and versions (including next generation Software) of the Software and/or SMT Apps mentioned in the Proposal according to the LIMA and/or GTC so the case may be.

1. PROPOSAL AND ACCEPTANCE

1.1 The GTC shall apply to the Proposals, all legal relationships, Software, SMT Apps, Services of whatever nature to the Customer. Proposal, Manufacturer, Software and/or SMT Apps or other defined words include their plural or vice versa depending on the context.

1.2 If and insofar as SMT provides Software from Manufacturers to the Customer, the LIMA shall replace the provisions in the GTC that depart from the LIMA and shall apply with regard to that Software (regardless of whether Maintenance has been agreed upon or terminated). The Customer shall accept the LIMA. If and insofar as the LIMA are deemed or declared inapplicable to the relationship between the Customer and SMT for whatever reason, the provisions in the GTC shall fully apply.

1.3 All Proposals and other statements by SMT shall be without obligation, unless SMT expressly indicate otherwise in writing. The Customer warrants the accuracy and completeness of the measurements, requirements, performance specifications and other data on which SMT bases its Proposal and which have been stated by or on behalf of the Customer to SMT.

1.4 The application of the Customer's purchasing or other terms and conditions is expressly rejected unless additional terms and conditions are agreed upon in the Proposal.

1.5 If any provision of the GTC is null and void or annulled, the other provisions of the GTC shall remain in full force.

1.6 SMT may make amendments to these GTC. In case of an amendment, SMT will give the Customer at least 30 days notice thereof. An amendment will be considered to be accepted by the Customer and will enter into force on the date determined by SMT, if the Customer does not reject the amendment within 30 days following the notification thereof. If the Customer rejects the amendment, SMT will be entitled to terminate the Agreement by giving at least 30 days notice of termination with effect from the end of a calendar month. In that case SMT shall refund all amounts prepaid by the Customer and are no longer due.

1.7 SMT may always state additional requirements concerning communication regarding Maintenance between the Parties.

2. PRICE AND PAYMENT

2.1 All prices shall be exclusive of turnover tax (VAT) and other levies imposed by the government. All prices quoted by SMT are in euros and the Customer must pay in euros. The prices include travel and other expenses within the Netherlands. All amounts invoiced are due with a 30 days term of payment, unless Parties have agreed otherwise in writing.

2.2 All amounts regarding licenses shall be invoiced after delivery. All amounts regarding Maintenance of the Software and/or SMT Apps shall be invoiced (unless otherwise agreed in the Proposal) upfront for one year after their start dates i.e.,

after delivery of the Software and/or SMT Apps. All amounts regarding Services shall be invoiced after being rendered or when such period is for intermediate terms of four (4) weeks, after every four (4) weeks. All amounts regarding Training services shall be invoiced and paid before being rendered.

2.3 In the absence of an expressly agreed invoicing schedule, all amounts pertaining to development of the Software or SMT Apps shall be owed when the Software or SMT Apps are delivered or, if installation by SMT has also been agreed in a particular case, when the installation is completed.

2.4 In the absence of an expressly agreed invoicing schedule, all amounts pertaining to maintaining Software and/or SMT Apps shall be owed before the maintenance period commences.

2.5 If the Customer must make regular payments, SMT shall be entitled to adjust the applicable prices and rates by providing written notice at least three (3) months in advance. If the Customer does not wish to agree to such an adjustment, the Customer shall, within thirty days after the notice, be entitled to terminate the Agreement before the date on which the adjustment would have become effective.

2.6 The Parties shall record in the Proposal and/or Statement of Work the date or dates on which SMT shall charge the Customer the fee for the agreed performance. The Customer shall pay invoices in accordance with the payment conditions stated on the invoice. In the absence of a specific provision, the Customer shall pay within thirty days after the invoice date. The Customer shall not be entitled to set off or to suspend a payment.

2.7 If the Customer does not pay the amounts owed in a timely manner as stated in the Proposal (see: Cost overview and/or invoice), SMT will issue the Customer with a reminder that payment is due. If the Customer does not pay the amount due within 15 days of receipt of the reminder from SMT, the Customer shall owe the statutory interest for commercial agreements on the outstanding amount and SMT can pass on the claim for collection, in which case the Customer shall, in addition to the total amount owed then, be obliged to pay for all in-court and out-of-court expenses, including expenses charged by external experts in addition to the costs determined at law - all of which is without prejudice to any of SMT's statutory and contractual rights.

2.8 SMT is at all times authorized to require a reasonable advance payment from Customer. Furthermore, SMT is authorized to require (additional) security from Customer for the fulfilment of his obligations to pay in case the financial position or the payment record of Customer gives reason to act accordingly and judged by SMT. Customer is obliged to meet such a requirement. In case Customer fails to meet said requirement, SMT shall be authorized, without prejudice to SMT's other rights, to immediately suspend the (further) execution of the assignment and all that Customer is owing SMT for whatever reason, shall be immediately payable.

3. TERM AND TERMINATION OF THE AGREEMENT

3.1 The GTC shall enter into force as of the date that the Customer has received the GTC (with the Proposal) and shall remain in vigor until its termination by either party as described here below. The GTC is applicable to the Products and Services i.e., Services, Training, SMT Apps without prejudice to Article 1.3.

3.2 Each of the Parties shall only be entitled to terminate one or more individual contracts (e.g. LIMA), part of the Agreement for breach (in Dutch: "ontbinden") following an imputable failure of the other party to meet its obligations under one or more individual contracts if the other party, in all cases after having received a proper written notice of default which is as detailed as possible and in which it has been given a reasonable time period to remedy the breach, should still imputably fail to meet any of its essential obligations. Customer's payment obligations and all obligations of Customer or a third party contracted by Customer to cooperate and/or to provide information apply in all cases as essential obligations under the Agreement.

3.3 A termination for breach will not apply to the licensed Software provided if it has been paid for and Customer has complied with its license rights and license obligations.

3.4 An Agreement which, by its nature and substance, is not discharged by performance and which has been entered into for an indefinite period of time, may be terminated (in Dutch: opzeggen) by either of the Parties, by written notice after proper consultation and with a statement of reasons subject to setting out in full and in writing the alleged material default. If the Parties have not agreed on an express notice period, a reasonable notice period must be observed in terminating the Agreement i.e., six (6) months notice period after which the Agreement will be terminated. SMT is never obliged to pay compensation because of this termination.

3.5 Each of the Parties may partly or completely terminate (in Dutch: opzeggen) the Agreement in writing with immediate effect and without a notice of default if the other party is granted a provisional or nonprovisional suspension of payments, if a petition for bankruptcy is filed regarding the other party or if the other party's business is wound up or terminated for other reasons besides a business reconstruction or merger. SMT shall never be obliged on account of this termination to refund funds already received or to pay damages. In the event of the Customer's liquidation, the right to use Software provided to the Customer shall be extinguished by law if the Software license rights have not been fully paid up.

3.6 If, at the time of the termination for breach referred to in Article 3.2, the Customer has already received performance in connection with execution of the Agreement, this performance and the related payment obligation shall not be cancelled, unless the

Customer proves that SMT is in default regarding that performance. Amounts which SMT has invoiced before the termination in connection with what it has already properly performed or delivered to execute the Agreement shall, subject to the provisions in the preceding sentence, continue to be owed in full and shall be immediately payable at the time of rescission.

4. LICENCE I: SOFTWARE FROM SMT'S MANUFACTURER / LIMA

If and insofar as SMT provides Software from a Manufacturer to the Customer, LIMA shall replace the provisions of the GTC that depart from the LIMA. SMT will provide 1st line support and maintenance (i.e., telephone support, software updates) as reflected in the GTC, while the 2nd line of support and maintenance of the Software is executed by the Manufacturer as reflected in the LIMA. The Customer hereby accepts the LIMA. If and insofar as the LIMA is deemed or declared inapplicable to the relationship between the Customer and SMT for whatever reason, the provisions in the GTC shall fully apply.

5. LICENCE II: SMT APPS / GTC

5.1. Subject to the provisions about Intellectual Property Right, SMT shall grant the Customer the nonexclusive right to use the SMT Apps as stated in the Proposal. The Customer shall always strictly comply with the user restrictions agreed between the Parties. Subject to the other provisions in the GTC, the Customer's right of use shall only include the right to load and run the SMT Apps as agreed upon in this GTC.

5.2. The Customer may only use the SMT Apps in its own Company or organization and for a specific number or type of users or endpoints for which the right of use has been furnished. The right of use may pertain to multiple processing units insofar as this is expressly apparent from the GTC.

5.3. The right of use shall not be transferable outside the Company or organization of the Customer and the right of use will be rescinded if a part of the Company or organization will be assigned to a Third Party. The Customer shall not be allowed to sell, lease, sub-license or alienate the SMT Apps and data carriers on which it has been recorded, grant restricted rights to these data carriers or provide them to a third party in any manner or for any purpose whatsoever, give a third party remote or non-remote access to the SMT Apps, place the SMT Apps with a third party for hosting, not even if the third party in question will only use the SMT Apps for the Customer's benefit. The Customer shall not modify the SMT Apps except in connection with fixing Errors. The Customer shall not use the SMT Apps to process data for third parties ("time-sharing"). The Software's source code and the technical documentation generated in developing the SMT Apps shall not be made available to the Customer, not even if the Customer is prepared to pay financial compensation for making them available, unless both parties agree to set up an escrow arrangement. The Customer acknowledges that the

source code is confidential in nature and that it includes SMT's trade secrets.

5.4. The Customer shall immediately return all copies of the SMT Apps in its possession to SMT after the right to use the SMT Apps ends if and when the right to use the Software ends. If the Parties have agreed that the Customer shall destroy the copies concerned when the right of use ends, the Customer shall provide written notice of such destruction to SMT immediately.

6. DELIVERY, INSTALLATION BY SMT / ACCEPTANCE BY CUSTOMER

6.1. SMT shall deliver the Software and/or SMT Apps to the Customer on the agreed type and format of data carriers and, if installation by SMT has been agreed in writing, shall install the Software and/or SMT Apps at the Customer's site. Parties will agree upon a Statement of Work and/or SLA attached to and part of the GTC in order to specify delivery and installation activities i.e., Implementation. Unless agreed upon in the Proposal, the Customer itself shall install, set up, design parameters for and tune the Software and SMT Apps and, if necessary, adjust the equipment and user environment used in this connection. Unless expressly agreed upon in the Proposal, SMT shall not be required to convert data.

6.2. If the Parties have not agreed on any acceptance test, the Customer shall accept the Software and/or SMT Apps in the condition in which it is at the time of delivery (as Is, where Is), hence, with all apparent and nonapparent Errors and other defects, without prejudice to SMT's obligations under the guarantee of Article 8. The provisions in Articles 6.5 and 6.10 shall apply fully in all cases.

6.3. If and insofar an acceptance test has been agreed between the Parties in writing, the provisions in Articles 6.4 to 6.10 apply.

6.4. If an acceptance test has been agreed, the test period shall be 14 days after delivery, unless otherwise agreed upon in the Proposal or, if installation by SMT has been agreed in writing, after the installation is completed. The Customer shall not be allowed to use the Software and/or SMT Apps for productive or operational purposes during the test period. SMT may always require, hence, even if this has not been expressly agreed, that the Customer conduct a proper test of sufficient scope and depth using sufficiently qualified employees as to interim or other results of the development work and that the test results be reported to SMT in writing and in a well-organized and comprehensible manner.

6.5. The Software and/or SMT Apps shall be considered accepted by the Parties:

- a. If an acceptance test has not been agreed between the Parties: at the time of delivery or, if installation by SMT has been agreed in writing, when the installation is completed, or
- b. if an acceptance test has been agreed between the

Parties: on the first day after the successful test period, or

c. if SMT receives a test report as referred to in Article 6.7 before the end of the test period: at the time that the Errors mentioned in that test report have been fixed, notwithstanding the existence of imperfections which do not preclude acceptance under Article 6.6. In deviation from this, if the Customer makes any use of the Software and/or SMT Apps for productive or operational purposes before express acceptance, the Software and/or SMT Apps shall be considered fully accepted as from the start of that use.

6.6. If it turns out that the Software and/or SMT Apps contains Errors, when the agreed acceptance test is conducted, which impede the progress of the acceptance test, the Customer shall provide written, detailed notice to SMT, in which case the test period shall be interrupted until the Software and/or SMT Apps has been adjusted in such a manner that this impediment is eliminated.

6.7. If it turns out that the Software and/or SMT Apps contains Errors, when the agreed acceptance test is conducted, the Customer shall inform SMT about the Software and/or SMT Apps through a written and detailed test report no later than on the last day of the test period. SMT shall do its utmost to fix the Errors to the best of its ability within a reasonable time, with SMT being entitled to install temporary solutions, program bypasses or problem-avoiding restrictions in the Software and/or SMT App.

6.8. Acceptance of the Software and/or SMT Apps may not be withheld on other grounds besides those relating to the expressly agreed specifications between the Parties nor because of the existence of minor Errors, that is, Errors which do not reasonably preclude putting the Software and/or SMT Apps to operational or productive use, notwithstanding SMT's obligation to fix these minor Errors under the warranty provisions set out in Article 8 as provided, if applicable. In addition, acceptance may not be withheld regarding aspects of the Software and/or SMT Apps which can only be evaluated subjectively, such as the design of the user interfaces.

6.9 If the Software and/or SMT Apps is/are delivered and tested in stages and/or parts, the non-acceptance of a particular stage and/or part shall not affect any acceptance of an earlier stage and/or another part, provided that such earlier stage and/or another part has been accepted

6.10 Acceptance of the Software and/or SMT Apps in one of the ways referred to in Article 6.3 shall have the effect that SMT is fully discharged for performing its obligations concerning developing and providing the Software and/or SMT Apps. Acceptance of the installation by SMT in one of the ways referred to in Article 6.3 shall have the effect that SMT is fully discharged for performing its obligations concerning the installing of the Software and/or SMT Apps. Acceptance of the Software and/or SMT Apps shall not in any way impair the Customer's rights under Article 6.6 regarding

Errors being minor defects and the GTC provision regarding the guarantee.

7. DELIVERY PERIODS IN GENERAL

7.1 SMT makes reasonable efforts, within reason, to comply to the greatest extent possible with the terms and delivery periods and/or dates and delivery dates, whether these are deadlines and/or strict dates, that it has specified or that have been agreed on by parties. The interim dates and delivery dates specified by SMT or agreed on by Parties always apply as target dates, do not bind SMT and are always indicative.e

7.2 If a term or period is likely to be exceeded, Parties consult each other to discuss the consequences of the term being exceeded in relation to further planning.

7.3 In all cases – therefore, also if Parties have agreed on deadlines and strict delivery periods or dates and delivery dates – SMT is only in default because of a term or period being exceeded after the Customer has served SMT with a written notice of default and has set a reasonable period for SMT to remedy the failure to meet its obligations and this reasonable term has passed. The notice of default must describe SMT's breach to meet its obligations as comprehensively and in as much detail as possible so that SMT has the opportunity to respond adequately.

8. WARRANTIES

8.1. The Customer is aware and accepts that SMT is a reseller of Software and that SMT has not manufactured or developed the said Software. In so far as applicable, any warranties relating to Software shall only be provided to the extent that they are directly provided to the Customer by the Manufacturer provided that SMT is, in so far, enabled by the Manufacturer thereto. The Customer shall be referred to the warranty clause in the LIMA of the provided Software for the warranty conditions. Accordingly, SMT shall not provide any warranty for Software and other services, unless explicitly stated in the Proposal or agreed upon.

8.2. The information, software, products, and services delivered by SMT may include inaccuracies or typographical errors. SMT and/or its respective suppliers may make improvements and/or changes in the products or services at any time. SMT and/or its respective suppliers make no representations about the suitability, reliability, availability, timeliness, lack of viruses or other harmful components and accuracy of the information, software, products, services, and related graphics for any purpose, unless this is explicitly warranted in writing by SMT and/or its respective Manufacturers. SMT does in no event guarantee that software or products, obtained through SMT, will always function without interruption or failure.

8.3. SMT shall use best efforts to fix Errors in the SMT Apps to the best of its ability within a reasonable period

if they have been reported in writing and in detail to SMT within four (4) months after acceptance or, if an acceptance test has been agreed between the Parties, within four (4) months after acceptance. SMT does not warrant that the Software and/or SMT Apps shall operate without interruption, Errors, or other defects or that all Errors and other defects shall be corrected. Repairs shall be performed free of charge, unless the Software and/or SMT Apps have been developed at the Customer's instruction other than for a set price, in which case SMT shall charge the repair costs according to the usual rates. SMT may charge the repair costs according to its usual rates if there have been operating errors or improper use on the Customer's part or other causes not imputable to SMT or if the Errors could have been ascertained when the agreed acceptance test was conducted. The warranty shall not include fixing mutilated or lost data. The warranty obligation shall be extinguished if the Customer makes changes or has changes made to the Software and/or SMT Apps without SMT's written permission, which permission shall not be withheld on unreasonable grounds.

8.3.1. Errors shall be fixed at a location to be determined by SMT with prior notification to Customer. SMT shall be entitled to install temporary solutions, program bypasses or problem-avoiding restrictions in the Software and/or SMT Apps.

8.4. shall not have any obligations concerning fixing Errors reported after the expiry of the warranty period referred to in Article 8.1.

9. MAINTENANCE

9.1. If and insofar Customer purchased a maintenance fee for the SMT Apps, then Customer shall provide detailed notice to SMT of the Errors observed in the Software and/or SMT Apps in accordance with SMT's usual procedures. After receiving the notice, SMT shall, to the best of its ability, do its utmost to fix Errors. Depending on the urgency, the results shall be provided Page 6 of 12 to the Customer in the manner and within the period to be determined by SMT. SMT or Manufacturer shall be entitled to install temporary solutions, program bypasses or problem-avoiding restrictions in the Software. In the absence of maintenance for the SMT Apps in this regard, the Customer itself cannot install, set up, design parameters for and tune the corrected Software and/or SMT Apps or the new version provided and, if necessary, adjust the equipment and user environment used in this connection, without applying for maintenance according to the then applicable GTC and pay retroactively the maintenance fee for the previous year. Unless expressly otherwise agreed, SMT shall not be required to convert data.

9.2. SMT does not warrant that the Software and/or SMT Apps shall operate without interruption, Errors or other defects or that all Errors or other defects shall be corrected.

9.3. SMT may charge the repair costs according to its usual rates if there have been operating Errors or improper use on the Customer's part or other causes not imputable to SMT or if the Software and/or SMT Apps has/have been modified by others besides SMT. Maintenance shall not include fixing mutilated or lost data.

9.4. If a LIMA has been concluded or maintenance has been agreed as mentioned in the Proposal, SMT shall provide to the Customer improved versions or releases of the Software to the extent of the LIMA resp. the GTC and when they become available. SMT shall no longer be required to fix any Errors in the old version of the Software or to provide support regarding an old version six months after an improved version becomes available, unless a LIMA provides differently for the Software, which outcome applies to the SMT Apps as well.

9.5. If the Customer did not purchased maintenance regarding the SMT Apps, SMT cannot be required to enter maintenance obligations for the SMT Apps based on the GTC at that time or later in time.

9.6.. Maintenance includes:

9.6.1. Phone Support

- A. Customer agrees to have its license agreement number and relevant details available whenever calling SMT for related support.
- B. Telephone support is available to Customer via SMT from Monday through Friday, 9:00am - 17:00pm, (CET) to provide trouble-shooting advice, excluding official Dutch holidays.
- C. During the term of this GTC, SMT shall handle all support calls (phone or email) according to the "SMT Maintenance SLA", which represents the maintenance and support policies as may be changed from time to time with prior written notice to the Customer
- D. The Customer commits itself, for the duration of this GTC, to have at least one (1) engineer trained as an Administrator for the mentioned Software and/or SMT Apps.

9.6.2. Maintenance Software Updates

During the term of the Agreement, SMT:

- A. shall provide Updates to Software, Documentation and to the SMT Apps, subject to the LIMA or GTC respectively. Updates of the Software shall be deemed licensed pursuant to such LIMA. Updates of the SMT Apps shall be deemed licensed pursuant to GTC.
- B. is not eligible for any Software or Software product release announcement by the Manufacturer, which is/are not released for whatever reason.

9.7. SMT Support Engineer

If the Customer requires additionally on-site support services of a SMT Support Engineer, this can be requested by the Customer and SMT will charge the Customer with the then current mutually agreed SMT rates for this maintenance or other Services.

9.8. Customer's responsibilities

Customer shall be solely responsible for the supervision,

management, and use of the Software or SMT Apps and Updates, including but not limited to:

- A. Following regular and adequate back-up procedures.
- B. Assuring proper computer system operation, maintenance of the computer system, audit controls and operating methods.
- C. Following appropriate procedures to satisfy requirements for proper operating environment, for security and accuracy of input and output, and restart and recovery in the event of malfunction.
- D. Using the Updates only as described in the Documentation.
- E. Refraining from modifying the Updates, refraining from using any computer devices other than the computer system in conjunction with the Updates, and refraining from using computer Software programs not approved by SMT in conjunction with the Updates.
- F. Refraining from making any copy of the Updates, except to install the Updates on the hard disk comprising part of the computer system and to make a backup copy.

9.9. Maintenance miscellaneous

- A. SMT shall ensure that all Product(s) must be in standard operating condition and conform with the agreed Software version levels to be eligible for Maintenance or to remain covered based on the GTC or SMT Maintenance SLA.
- B. SMT shall have no obligation to provide or continue to provide Maintenance if Customer fails to install any Update, Upgrade, or new Software or SMT App release within six (6) months of SMT having provided such Update, upgrade, or new release together with notice that the installation of same is required to avoid a performance problem or otherwise for SMT to provide services hereunder.
- C. Maintenance services hereby obtained do not include or cover:
 - i) Software or SMT Apps repair, reinstallation, replacement, or other services necessitated by failures caused by or related to misuse, abuse, neglect, accident or willful or negligent acts, unauthorized maintenance or other unauthorized modifications of the Software by a person other than an authorized SMT representative, failures relating to theft, fire, water, (or other disasters) or other circumstances beyond the reasonable control of SMT, or
 - ii) Software or SMT Apps failure or malfunction caused by or related to electrical power abnormalities or other environmental conditions not in conformance with SMT's specifications, or
 - iii) Any service or support relating to Software or SMT Apps which is not specified on the applicable SMT Maintenance SLA, or
 - iv) Modification of the Customer's hardware products or operating system, or
 - v) On-site maintenance Services unless specifically provided for by the applicable SOW, or
 - vi) Travel, accommodations, courier, freight, or other unusual charges related to Maintenance services and not specified herein, however, subject to receipt of a Customer request for assistance.

9.10. If a SMT Maintenance SLA is agreed upon, then it starts (unless otherwise agreed in the Proposal) from the date of purchase of the license for the Software and/or SMT Apps as specified on each individual license number in the Proposal and is valid for a period of at least one year and will automatically be renewed without written discontinuation of the Customer (1 month in advance), unless the Customer purchase order for this renewal has not been received by SMT before the renewal date. SMT will provide Customer a notice of the expiration in writing at a minimum of three (3) months in advance. SMT can terminate the maintenance SLA Agreement in writing with twelve (12) months' notice in advance.

9.11. If the fee for Maintenance increases due to changes in the Manufacturer's pricing, Customer will be notified in writing at a minimum of two (2) months in advance and the renewal of the SMT Maintenance SLA will be activated after acceptance of the increased fee. The acceptance will be done by sending SMT a Customer purchase order for the SMT Maintenance SLA. If the Software and/or SMT Apps are being added to an existing license number, the Maintenance period must be in line with the date specified for that specific license number, and therefore the Maintenance period for this additional Software and/or SMT Apps must be purchased for 1 year plus the remaining months of the current Maintenance period.

10. SERVICES I

10.1. SMT shall, to the best of its ability, do its utmost to perform the services with due care and, where appropriate, in accordance with the GTC and/or Statement of Work and procedures recorded in writing with the Customer. All of SMT's services shall be performed on the basis of a best-efforts obligation, unless and insofar as SMT has expressly promised a result in a written and signed document and the result concerned has also been described with sufficient definiteness.

10.2. In addition to the general provisions in the GTC, these provisions shall apply if SMT provides Services or other services such as giving advice, feasibility studies, consultancy, study programs, hosting, development, or management of Software, websites or information systems and services regarding networks. These provisions shall not affect the provisions included in the GTC concerning specific services, such as Maintenance development of Software.

10.3. If it has been agreed that the services shall be provided in stages, SMT shall be entitled to postpone the start of the services which are part of a stage until the Customer has approved the results of the preceding stage in writing.

10.4. In performing the services, SMT shall only be obliged to follow timely and sensible instructions of the Customer if this has been expressly agreed in writing or in a Statement of Work. SMT shall not be required to follow instructions, which change or supplement the

substance or scope of the agreed services; if such instructions are followed, however, the work in question shall be compensated pursuant to Article 10.5.

10.5. If a new instruction for Services has been agreed upon with a view to performance by a particular person, SMT shall always be entitled to replace this person after consultation with the Customer with one or more other persons with the same qualifications.

10.6. If, at the written request of or with prior written consent from the Customer, SMT has performed work or rendered other performance which goes beyond the substance or scope of the agreed services, the Customer shall pay for that work or performance according to SMT's usual rates. Expanding or modifying a system analysis, a design or specifications shall also constitute additional work. SMT shall never be obliged to satisfy such a request, and it may require that a separate written agreement be concluded.

10.7. The Customer accepts that work or performance as referred to in Article 10.6 may affect the agreed or expected time of completion of the services and the mutual responsibilities of the Customer and Supplier. The fact that additional work – when so agreed upon - (or the demand for it) arises during execution of the Agreement shall not be a ground for the Customer to rescind or terminate the Agreement.

10.8. If a Customer cancels an agreed upon consultancy day within three workdays before the day of consultancy, the Customer shall be obligated to pay for this day, even though the Service was not carried out.

11. SERVICES II: SECONDMENT (NL= detaching)

11.1. There shall be secondment within the meaning of the GTC as referred to above if SMT makes an employee (hereinafter: "the Seconded Employee") available to the Customer to have this Employee perform work under the Customer's supervision, management and/or direction.

11.2. SMT shall exert its best efforts to ensure that the Seconded Employee remains available for the term of the Agreement, notwithstanding the provisions in Article 10.5 concerning replacement.

11.3. The Customer shall be entitled to request replacement of the Seconded Employee if the Seconded Employee demonstrably does not meet expressly agreed quality requirements and the Customer provides written notice of this to SMT within 14 working days ultimately after the work commences. SMT shall immediately address the request, making it a priority. SMT does not warrant that replacement shall always be possible. If replacement is not or not immediately possible, the Customer's claims to further performance of the Agreement shall be extinguished. The Customer's payment obligations will be re-considered at terms then to be discussed and agreed upon by both parties.

11.4. The Customer shall be entitled to request replacement of the Seconded Employee if the Seconded

Employee experiences a long-term illness or leaves SMT's employment. SMT shall immediately address the request, making it a priority. SMT does not warrant that replacement shall always be possible. If replacement is not or not immediately possible, the Customer's claims to further performance of the Agreement as well as all claims of the Customer on account of non-performance of the Agreement shall be extinguished. The Customer's payment obligations concerning the work performed shall continue to exist.

11.5. SMT shall be obliged to make timely and complete payment of the wage tax and social security contributions (including advance contributions) to be paid for the Seconded Employee in connection with the Agreement. SMT shall indemnify the Customer against all statutory claims by the Tax Authorities or social insurance agencies regarding taxes and social security contributions directly relating to SMT's making the Seconded Employee available ("liability for using external personnel"), provided the Customer allows SMT to handle the claims concerned completely, cooperates fully with it and furnishes it with all necessary information and, if SMT desires, power of attorney to conduct legal proceedings.

11.6. SMT shall not accept any liability for the Employee concerning the results of the work arising under the Customer's supervision, management and/or direction.

12. SERVICES III: TRAINING

12.1. Depending on the availability of the SMT training facilities, the training will be held at the SMT premises, unless an onsite training has been agreed upon in the Proposal.

12.2. Insofar as the services by SMT consist of providing a course or training session, SMT will always demand payment of the amount owed before it begins to provide these services. SMT's normal rules shall govern the consequences of cancellation of participation in the study program, course, or training session.

12.3. If the number of registrations justifies doing so in SMT's judgment, SMT shall be entitled to have the training take place at a later date or a later time.

12.4. If a participant of a training held by SMT cancels within three workdays before the agreed upon training takes place or does not show up for this training, the Customer shall be obligated to pay for the agreed upon training for the participant, even though the participant did not complete the training.

13. COOPERATION BY THE CUSTOMER; INFORMATION, EQUIPEMENT, PERSONNEL

13.1. The Customer shall always furnish SMT in a timely manner with all data or information which is useful and necessary to execute the GTC or other contractual relationships properly and provide full cooperation, including furnishing access to its buildings. If the

Customer utilizes its own employees in cooperating in the execution of the GTC or other contractual relationships, these employees shall possess the necessary know-how, experience, abilities, and characteristics.

13.2. The Customer shall bear the risk of selecting, using, and applying in its organization the hardware equipment even when recommended by SMT, Software, websites, databases and other products and materials and the services to be provided by SMT, and shall also be responsible for the monitoring and security procedures and proper system management.

13.3. If the Customer furnishes Software websites, materials, databases, or data to SMT on a data carrier, this carrier shall meet the specifications prescribed by SMT.

13.4. If the Customer does not provide SMT with the data, hardware equipment, Software, employees necessary to execute the Agreement or does not provide this in a timely manner or in accordance with the Agreement made, or if the Customer otherwise does not fulfil its obligations, SMT shall be entitled to suspend execution of the Agreement in whole or in part, and it shall be entitled to charge the ensuing expenses in accordance with the mutually agreed rates between SMT and Customer, all of this without prejudice to SMT's right to exercise any other legal right.

13.5. If employees of SMT perform work on-site at the Customer's, the Customer shall provide the facilities reasonably desired by those employees free of charge, such as a working space with computer and telecommunications facilities, if so required. The working space shall comply with all applicable statutory and other requirements and provisions concerning working conditions. The Customer shall indemnify SMT against claims by third parties, including SMT's employees, who, in executing the Agreement, suffer injury, which is the result of acts or omissions by the Customer or of unsafe situations in its organization. The Customer shall provide timely notice to SMT's employees to be utilized of the company and security rules applicable within its organization.

13.6. If, in executing the Agreement, telecommunications facilities, including the Internet, are used, the Customer shall be responsible for properly selecting these and making them available in a timely and sufficient manner, except for those facilities directly used and managed by SMT. SMT shall never be liable for damage or expenses due to transmission Errors, malfunctions or the non-availability of these facilities, unless the Customer proves that this damage or these expenses resulted from intentional acts or omissions or gross negligence on the part of SMT or its managers. If telecommunications facilities are used in executing the Agreement, SMT shall be entitled to assign access or identification codes to the Customer. SMT may change the assigned access or identification codes. The Customer shall treat the access codes as confidential and

with due care and shall only disclose them to authorized employees. SMT shall never be liable for damage or expenses resulting from misuse of access or identification codes by Customer only.

14. RISK

The risk of loss, theft, misappropriation or damage of goods, information (including usernames, codes and passwords), documents, Software, SMT Apps or data files that are created for, delivered to or used by Customer in the context of the performance of the Agreement pass to Customer at the moment these are placed under the actual control of Customer or an auxiliary person of Customer.

15. INTELLECTUAL PROPERTY RIGHTS

15.1. Without prejudice to the provisions in the LIMA all intellectual property rights to Software, SMT Apps, websites, databases, equipment, or other materials developed or provided under the GTC, such as analyses, designs, documentation, reports, Proposals, as well as preparatory materials in that regard, shall be held solely by SMT, its licensors or its Manufacturers. The Customer shall only acquire the rights of use expressly granted in these Terms and Conditions and by law. Any other or more extensive right of the Customer to reproduce Software, websites, databases, or other materials shall be excluded. A right of use to which the Customer is entitled shall be non-exclusive and nontransferable to third parties. If SMT will develop and deliver customized software, Customer will obtain the intellectual property rights of the newly developed Customized Software for a compensation to be agreed upon in a separate contract.

15.2. If, in deviation from Article 15.1, SMT is prepared to undertake to transfer an intellectual or industrial property right, such an obligation may only be entered into expressly in writing. If the Parties expressly agree in writing that intellectual or industrial property rights regarding Software, websites, databases, equipment or other materials specifically developed for the Customer shall be transferred to the Customer, this shall not affect SMT's right to apply and to use, either for itself or for third parties, the parts, general principles, ideas, designs, documentation, works, programming languages and the like underlying that development, without any limitation on other purposes. Nor shall a transfer of intellectual or industrial property rights affect SMT's right to undertake developments for itself or third parties which are like those done for the Customer.

15.3. The Customer shall not be allowed to remove or modify any designation concerning the confidential nature or concerning copyrights, trademarks, business names or other intellectual or industrial property rights from the Software, websites, databases, equipment, or materials.

15.4. SMT shall be allowed to take technical measures to protect the Software or with a view to agreed restrictions in the duration of the right to use the

Software. The Customer shall not be allowed to remove or evade such a technical measure. If security measures result in the Customer being unable to make a back-up copy of Software, SMT shall provide the Customer with a back-up copy upon request.

15.5. Unless SMT provides a back-up copy of the Software to the Customer, the Customer may make one back-up copy of the Software, which may only be used to protect against involuntary loss of possession or damage. The back-up copy may only be installed after involuntary loss of possession or damage. A back-up copy must have the same labels and copyright designations as are present on the original version (see Article 15.3).

15.6. Subject to the other provisions of the GTC, the Customer shall not be entitled to correct Errors in Software and/or SMT Apps provided to it if that is necessary for the intended use of the Software unless agreed upon or with the consent of the Manufacturer mentioned in the LIMA. In the GTC, "Errors" shall mean a substantial failure to meet the functional or technical specifications stated in writing by SMT and, in the case of custom-made Software and websites, the functional or technical specifications expressly agreed between the Parties in writing. An Error shall only exist if the Customer can prove it and if it can be reproduced. The Customer shall be obliged to notify SMT of Errors immediately.

15.7. SMT shall indemnify the Customer against any third-party cause of action based on the claim that software, websites, databases, equipment, or other materials developed by SMT itself infringe an intellectual property right on the condition that the Customer immediately informs SMT in writing about the existence and substance of the cause of action and let SMT handle the matter completely, including with respect to agreeing to any settlements. To that end, the Customer shall provide the necessary information and cooperation to SMT to defend against these causes of action. This indemnification obligation shall be extinguished if the alleged infringement relates (i) to materials provided by the Customer to SMT for use, adaptation, processing, or incorporation, or (ii) to changes the Customer has made or caused third parties to make to the Software, website, databases, equipment or other materials. If it has been established in court as an incontrovertible fact that the Software, websites, databases, equipment or other materials developed by SMT itself infringe any intellectual or industrial property right held by a third party or if, in SMT's judgment, it is likely that such infringement will occur, SMT shall, if possible, and subject always to the aforementioned indemnity ensure that the Customer can continue to have undisturbed use of the delivered objects, or functionally equivalent other Software, websites, equipment or the other materials concerned, for example, by modifying the infringing parts or by acquiring a right of use for the Customer. If, in its exclusive judgment, SMT cannot ensure or cannot ensure except in a manner that is unreasonably burdensome (financially or otherwise) for it that the

Customer can continue to have undisturbed use of the delivered Software and/or SMT Apps, SMT shall take back the delivered Software and/or SMT Apps, with crediting of the acquisition costs minus a reasonable user's fee. SMT shall not make its choice in this regard until after the Customer has been consulted. Any other or more extensive liability or indemnification obligation on SMT's part due to the infringement of a third party's intellectual or industrial property rights shall be completely excluded, including liability and indemnification obligations on SMT's part for infringements caused by using the Software, websites, databases, equipment and/or materials delivered (i) in any form not modified by SMT, (ii) in connection with Software and/or SMT Apps not delivered or furnished by SMT or (iii) in another manner besides that for which the equipment, Software, websites, databases and/or other materials were developed or intended.

15.8. The Customer warrants that there are no thirdparty rights which are inconsistent with providing SMT with equipment, Software, materials intended for websites (visual material, text, music, domain names, logos etc.), databases, or other materials, including draft material, intended for use, adaptation, installation, or incorporation (for example, in a website). The Customer shall indemnify SMT against any action based on the claim that such provision, use, adaptation, installation, or incorporation infringes a third-party right.

16. CONFIDENTIAL INFORMATION and TAKING OVER EMPLOYEES

16.1. Each of the Parties warrants that all the information received by the other party, which is known to be or should be known to be confidential in nature shall remain secret, unless a legal obligation mandates disclosure of that information. The party receiving the confidential information shall only use it for the purpose for which it has been provided. Information shall in any event be considered confidential if it is designated by either of the Parties as such.

16.2. During the term of the Agreement and for one year after it is terminated, each of the Parties shall not, unless it receives prior written permission from the other party, take on employees of the other party who are or were involved in executing the Agreement or otherwise have these employees work for it, directly or indirectly. As the occasion arises, SMT shall not withhold the permission concerned if the Customer has offered appropriate compensation to be mutually agreed between SMT and the Customer.

16.3. In case of violation of any of the provisions of Article 16, a lump sum indemnification will be due by the Consumer, per violation committed, equal to EUR 50,000, increased by EUR 5,000 per day that the violation continues, without prejudice to SMT's right to claim higher damages and without prejudice to SMT's right to claim injunctive relief or any other legal measures available under applicable law.

17. PRIVACY, SECURITY AND RETENTION PERIODS

17.1. SMT shall comply with the GDPR concerning its processing of personal data. Our Privacy Policy will provide more information (<https://www.smtware.com/en/privacy-policy/>). When applicable the Parties hereby acknowledge that Supplier is a data processor and Client is a data controller and further rights and obligations will be agreed by parties in a separate Data Processing Agreement.

17.2. SMT shall provide appropriate technical and organizational measures to protect personal and other data against loss or against any form of unlawful processing.

17.3. The Customer shall indemnify SMT against claims by persons whose personal data has been recorded or processed in connection with a register of persons maintained by the Customer or for which the Customer is responsible under law or otherwise, unless the Customer proves that the facts underlying the claim are solely imputable to SMT.

17.4. The Customer warrants that all statutory provisions concerning processing personal data, including provisions in or under the "GDPR", have been strictly observed and that all prescribed registrations have been carried out and all required consents to process personal data have been obtained. The Customer shall provide SMT immediately in writing with all requested information in this respect.

17.5. The Customer shall indemnify SMT, and the Manufacturer mentioned in the LIMA against all thirdparty claims which may be filed against SMT and/or the Manufacturer mentioned because of a violation of the GDPR and/or other laws concerning processing personal data which is not imputable to SMT and/or the Manufacturer mentioned.

18. RETENTION OF TITLE AND RIGHTS, SPECIFICATION AND POSSESSORY LIEN

18.1. All Software and/or SMT Apps delivered to the Customer shall remain SMT's property as well as the provisional and temporarily granted licenses (e.g. betarelease or experimental license) until all amounts owed by the Customer for the Software and/or SMT Apps delivered or to be delivered or Services performed or to be performed under the GTC as well as all other amounts which the Customer owes due to a breach of its payment obligation, have been paid fully to SMT. A Customer acting as a reseller may sell and re-deliver all items subject to SMT's retention of title insofar as that is common in connection with its normal business operations.

18.2. As the occasion arises, rights shall always be granted or transferred to the Customer on the condition that the Customer pays the agreed fees fully and in a timely manner.

18.3. Notwithstanding any delivery obligation including Services to be rendered, SMT may maintain possession of the Software and/or SMT Apps (e.g., new versions), products, proprietary rights, information, documents, databases and interim or other results of SMT's Services which have been received or generated in connection with the GTC until the Customer has paid all amounts owed to SMT.

19. FORCE MAJEURE

19.1. A party shall not be obliged to perform any obligation if it is prevented from doing so by a situation of force majeure. "Force majeure" shall also include a situation of force majeure for SMT's Manufacturer, improper performance of obligations by Manufacturer prescribed by the Customer for SMT, as well as defects in materials or software of third parties or Software and/or SMT Apps which the Customer has required SMT to use or when Manufacturer will not enable SMT to act according to the LIMA.

19.2. If a situation of force majeure lasts for more than 90 days, the Parties shall be entitled to terminate the Agreement by rescinding it in writing. What has already been performed pursuant to the Agreement shall in that case be settled proportionately, without the Parties otherwise owing each other anything.

20. SMT'S LIABILITY; INDEMNITY

20.1. SMT's total liability for imputably failing to perform shall be limited to compensating direct damage, up to at most the amount of the price (exclusive of VAT) stipulated for that Agreement/ LIMA restricted to the individual failing Software (relevant in case of delivery of more than one Software type) or restricted to the Maintenance fee paid for that particular Software type in the year of the claim (relevant when not having delivered the Software maintained). If the Agreement is primarily a continuing performance Agreement with a term exceeding one year, the price stipulated for the liability shall be set at the total of the fees (exclusive of VAT) stipulated for one year. The total compensation for direct damage shall not, however, in any case exceed the initial license price of the Software and/or SMT Apps including Maintenance fees or the Maintenance fee only (in case of not having delivered the Software and/or SMT Apps), or, if any of the previous amounts in this sentence mentioned are higher, nevertheless, no more than EUR 500,000 (five hundred thousand euros).

20.2. SMT's liability for injury or damage through death or bodily injury or because of material damage to objects is limited to the amount, including any policy excess, which in a particular case is considered for payment under our insurance. If and insofar as for whatever reason no payment is made under insurance policies, the total amount is limited to EUR 500,000 (five hundred thousand euros).

20.3. SMT's liability for consequential damage, consequential loss, lost profits, lost savings, loss of goodwill, damage through business interruptions,

damage ensuing from claims by the Customer's customers, mutilation or loss of data, damage relating to the use of Software and/or SMT Apps, objects, materials or software of third parties prescribed by the Customer for SMT, damage relating to engagement of (third party) suppliers prescribed by the Customer for SMT and all other forms of damage or injury besides those mentioned in Article 20.1 and 20.2, on any account whatsoever, is excluded

20.4. The limitations mentioned in the preceding paragraphs of this Article 20 shall not apply if and insofar as the damage or injury is caused by intent or deliberate recklessness on the part of SMT's management.

20.5. SMT's liability because of an imputable failure to perform an Agreement shall in all cases only arise if the Customer immediately provides a written notice of default to SMT, with a reasonable period for remedying the failure being given and SMT still imputably failing to perform its obligations after that period as well. The notice of default must contain a description of the breach, which is as complete and specific as possible, so that SMT can respond adequately.

20.6. For any right to damages to exist, the Customer must always report the damage or injury to SMT in writing as soon as possible after it occurs. Any claim to damages against SMT and/or Manufacturer shall be extinguished by the mere lapse of 24 months after the claim arises.

20.7. The Customer shall indemnify SMT and/or Manufacturer against all third-party claims because of product liability ensuing from a defect in a product or system which has been delivered by the Customer to a third party and which partly consisted of equipment, Software or other materials delivered by SMT, except if and insofar as the Customer proves that the damage or injury was caused by that equipment, Software, or other materials.

20.8. The provisions in this Article and all other exclusions and limitations of liability referred to in these GTC also apply in favor of all natural persons and legal persons that SMT and SMT's suppliers' contracts for the performance of the Agreement.

21. APPLICABLE LAW AND DISPUTES

21.1. Dutch law shall govern the GTC and all Agreements between SMT and the Customer. The Vienna Sales Convention of 1980 shall not apply. For disputes arising between the Customer and the Manufacturer in connection with the LIMA, the choice of law and dispute resolution mentioned in the LIMA will prevail the GTC.

21.2. Any dispute that may arise based on these GTC, an Agreement or as a result of further agreements between SMT and the Customer shall be resolved by the Court of Rotterdam (The Netherlands).
